GDES 070: FINAL PROJECT DOCUMENTATION

1. Overview/Problem Statement including recommended solution:

Activity/Task	Improvement/Intervention/Product	User(s)	Solution
Individual or Group Study	Provide a means for students to form virtual study groups, collaborate, create study aids, manage time, etc.,	Students, teachers, publishers (analytics)	Web or mobile app
• **RFArt419 Animations** is a fictional phone app featuring fictional original animation characters.	• Provide a means for users to manage how they watch fictional animation movies. **My Final Project** called **RFART419 Animations** app will consist of a **Home, Videos, Playlists, Channels, Discussions,** and **About** buttons after the user presses the **Enter** button.	• This app is catered towards both Animation Fans and Animation Students.	• My final project will be a fictional Mobile App.

My **Final Project** called **RFART419 Animations** app will consist of a Home, Videos, Playlists, Channels, Discussions, and About buttons after the user presses the Enter button.

The **Home** menu will consist of Shorts, Uploads, Popular Uploads, Multiple Playlists, **Little Mermaid** Parodies Playlist, Created Playlists, Favorite Channels #1 and #2.

The **Videos** menu will consist of Uploads category with a Sort By button.

The **Playlists** menu would feature all user's playlist.

The **Channels** menu would consist of all users' favorite channels.

The **Discussion** menu would feature an Add a Public Comment.

The **About** menu consist of channel history and it also has links to users' **Youtube** channel and **Instagram** account.

I drew **multiple sketches** of **fictional app icon** such as a heart, tiara, seashell, flower, star, apple, princess tiara, moon, sun, mermaid tiara, diamond, pearl, butterfly, shooting star and a pineapple shape.

Marina Nanami will be the mascot for the fictitious app in multiple outfits, such as a heart theme, overalls, and multiple hair style designs, aside from her iconic twintails.

2. Personas or other user analysis and/or research:

Name: Melissa Watterson - 19

Background: Melissa Watterson is a 19-year old student attending online classes provided by Florida State College at Jacksonville. She aspires to learn about the fundamentals of how Anime is made. She had increasing interest in the talent, artistry, passion and beauty that can be found in Japanese animation.

Needs: She needs to learn the fundamentals of how Anime is made.

Scenario: Melissa is not familiar with Japanese animation and she looks up the topic online. She found little information about the process of making an anime. With this app, she is able to learn the fundamentals of how Anime is made. She is also able to watch fictional animation movies, videos, playlists, channels, and participate in online discussions.

Name: Mona Williams - 30

Background: Mona Williams is a professional artist based in Orlando, Florida in the United States. Recently, she has become interested in the talent, artistry, passion and beauty of Japanese animation.

Needs: Mona needs to learn the general process in creating Japanese animation for her studio productions.

Scenario: Mona is not familiar with Japanese animation and she looks up the topic online. She found little information about her specific need.

Name: Emily Johnson - 8

Background: Emily Johnson is a 2nd-grade student attending Florida City Elementary School.
She is interested in watching fictional Japanese animation as a hobby.

Needs: She wants to watch fictional Japanese animation videos, playlists, channels and paticipate in online discussions.

Scenario: Emily would brag with her friends about her increasing interest in Japanese animation but she doesn't know where to find the appropriate app. With this app, she is able to watch fictional animation movies, videos, playlists, channels, and participate in online discussions.

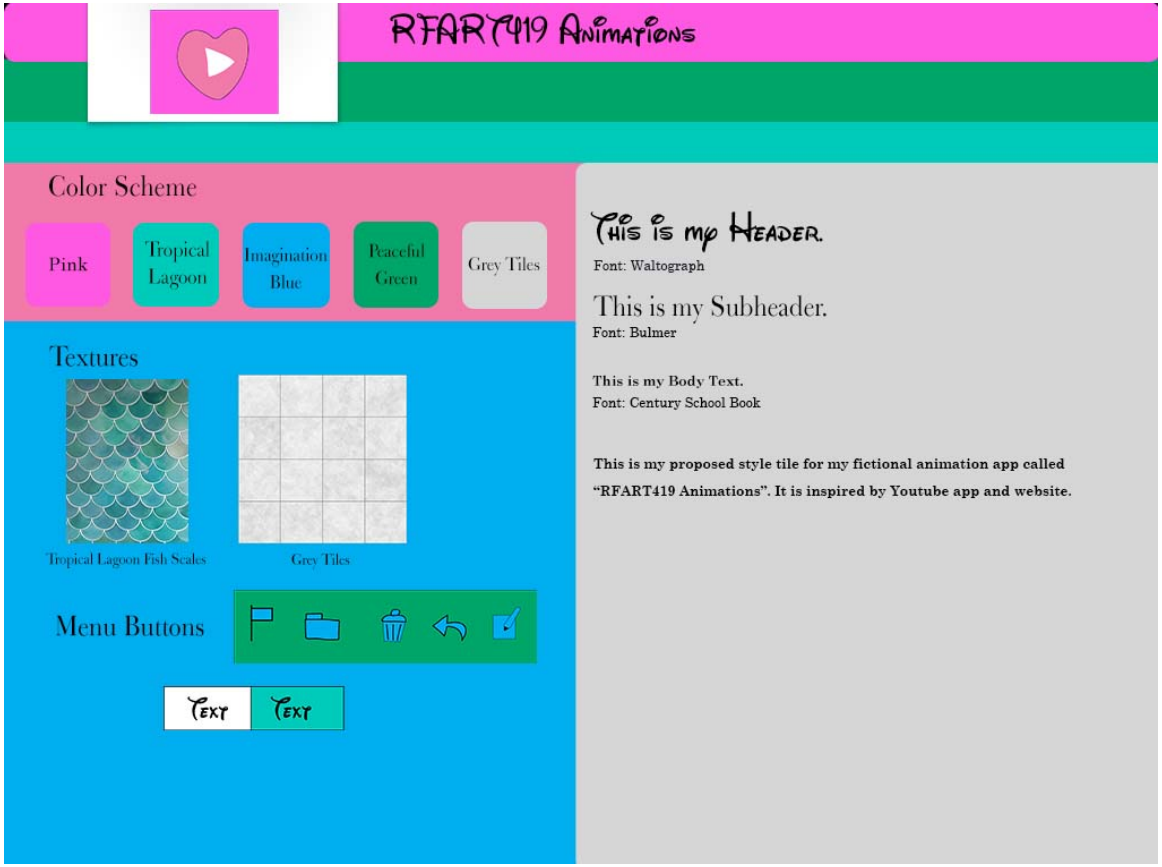
7. Color Style and Typography:



This is my proposed style tile for my fictional animation app called "RFART419 Animations". It is inspired by the Youtube app and website. My color schemes are Pink, Tropical Lagoon, Imagination Blue, Peaceful Green, and Grey Tiles. My textures of choice are Tropical Lagoon Fish Scales and Grey Tiles. The Disney-inspired Waltograph is my Header font. Bulmer is my Subheader font. Century School Book is my Body Text font as well. In Addition, The Menu Buttons consist of blue buttons in a green button and the Text buttons have a unique Waltograph font. My logo icon also consists of a pink heart shape with a white play button in a dark magenta rectangle background.

8. Final Mockup, comps, and prototype:

Description
I'm a humble and artistic user who loves Arts and Crafts in general. I also love Anime and manga. Greetings from the USA.
In addition, I am also the creator of the my original student film anthology collection on Youtube called "Adventures at Disneysea", which is inspired by Tokyo Disney Resort in Japan. "Marina Nanami" is my main own character of my original Tokyo Disney Resort student films.
Japanese Translation:
私は芸術と工芸品全般を愛する謙虚で芸術的なユーザーです。 アニメやマンガも大好きです。 アメリカからのご挨拶。
また、東京ディズニーリゾートにインスパイアされた、YouTubeのオリジナルの学生映画アンソロジーコレクション「アドベンチャーズ・アット・ディズニーシー」の作成者でもあります。 「七海マリナ」は、私のオリジナルの東京ディズニーリゾートの学生映画の主人公です。
